SLIMLINE Curve<sup>TM</sup>

Energy Efficient Electric Radiator

# The original ultra slim, energy saving electric radiator

With the latest intelligent heat management technology and easy access digital controls, we've made one of the most popular and energy efficient electric radiators in the UK even cheaper to run, better to look at and easier to use than ever before

10 Year Warranty

EU Manufactured

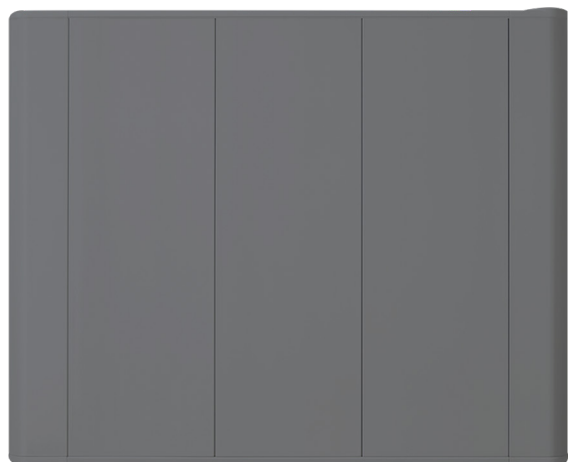

LOT 20 Compliant

WHITE

ANTHRACITE

Rated Excellent (Based on 1000+ reviews)

27/7 Programmable

## Heat where you want it when you want it

Each Slimline Curve electric radiator is individually programmable with 24/7 settings. Set each room on its own schedule to get heat when you want it where you want it while avoiding heating unused areas. Or use the simple On/Off feature for those less used spaces.

Ultra Slim Design

## At only 51mm deep this is UK's slimmest radiator

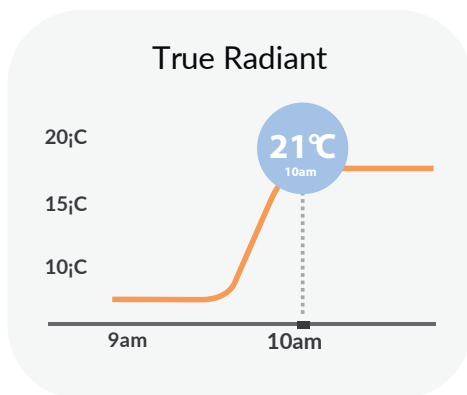

Our Slimline Curve is built to blend seamlessly into the tightest hallways, cosiest conservatories, and every size room in your home.

Ultra Energy Efficient

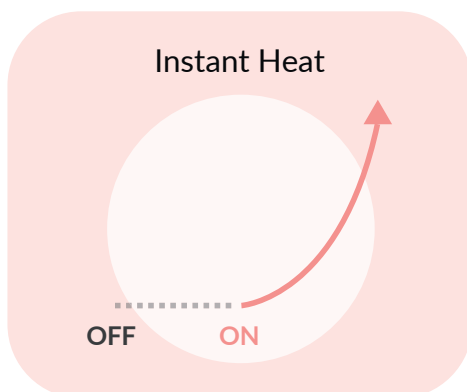

## Save up to 50% on your heating bills

More than just another radiator, our Slimline Curve uses the latest intelligent heat management technology to optimise the amount of heat produced for every unit of electricity, ensuring maximum cost savings along the way.

High Quality Heat Delivery

## Blended heat delivery for fast heat up times with traditional warmth

The Slimline Curve uses a combination of convection and radiant heat which allows for fast heat up times alongside the same warmth as the traditional radiators you are used to. Our True Radiant mode will also heat the room to the temperature you set at by the time you set, taking the guesswork out of scheduling your heating.

Google & Alexa Activated

## Control using your voice

Simply connect each radiator to the iHeat app and gain complete control of your heating from your smartphone or tablet. Adjust temperatures, set programmes and monitor usage, any time any place.

Ok Google, turn the heating off in the hallway

Ok I will turn heating off

Wifi Controlled

## Control your heating from anywhere in the world

Simply connect each radiator to the iHeatControl app and gain complete control of your heating from your smartphone or tablet. Adjust temperatures, set programmes and monitor usage, any time any place.

## All Features

### Energy Saving

-  Maximum Energy Efficiency
-  Instant Heat
-  Intelligent Temperature Control System
-  Precision Temperature Sensor
-  Open Window Detection
-  European LOT20 Compliant
-  Blended Heat Deliver
-  True Radiant Mode

### Design & Build

-  51mm Ultra Slim Design
-  Top Control Panel
-  Hidden Front Vent
-  5 Size Options 600w to 2000w
-  EU Manufactured
-  Wall Mounted or Freestanding
-  Wall Discolouration Protection
-  High Quality Aluminium Body
-  100% Silent

### Usability

-  24/7 Programmable
-  Pre-set or Custom Programmes
-  Unlimited Daily Settings
-  Anti-frost Mode
-  Longlife Timer Battery
-  Quick and Easy Installation
-  Protection from Overheating
-  Quick Glance Energy Meter
-  Baby Care Function

## Curve Wifi Additional Features

### Energy Saving

-  Individually Wifi Controlled
-  Simple USB Connection
-  See Historic Power Consumption
-  Simple App for Android and Apple

### Design & Build

-  Add Multiple Users
-  Easily Identify Radiators
-  Unlimited Connectivity
-  Away from Home detection

### Usability

-  Connect Home Assistant Google/Alexa
-  Connect up to 31 Radiators
-  Easily Copy Schedule
